- Understand the role and importance of a code of ethics to a profession;
- Understand the Principles of Medical Ethics of the AMA and the role The Council on Ethical and Judicial Affairs (CEJA) has in interpreting them;
- Understand how to use the code of medical ethics especially as it relates to economic issues in the delivery of health care.

How Did We Get Here – *Jeff Cashman, DO*

At the end of this session, the attendee should be able to:

- Understand the history of payment models in the United States Health Care System;
- Understand ethical implications of the historical payment models;
- Understand the pitfalls of previous payment models and how that can be applied to our current system.

Everybody Has Access – *Walter Limehouse, MD*

At the end of this session, the attendee should be able to:

- Understand the implications of Emergency Medical Treatment and Active Labor Act (EMTALA);
- Understand who uses the Emergency Department (ED's);
- Understand the impact of psychiatric illness and boarding in Emergency Department (ED's).

When Choice is Not a Choice: Transitions at the End of Life – *Marisette Hasan, RN & Tom Glisson, M.DIV*

At the end of this session, the attendee should be able to:

- Discuss the ethical dilemmas that exist when patients are not given a choice related to ongoing treatment options;
- Identify patient care delivery options that are available for persons who are living with an advanced or serious illness;
- Identify at least two proven outcomes that validate the value of initiating goals of care conversations with patients and their families;
- Recognize the key elements that should be included when initiating goals of care conversations with seriously ill patients and their family members;
- Recognize the burden of end of life costs of care versus alternative treatment options available to patients that serve to enhance the patient's quality of life.

Ethical Issues Raised by The Affordable Care Act – *Stuart Sprague, PhD*

At the end of this session, the attendee should be able to:

- Understand the complex relationships of the parts of the Affordable Care Act;
- Apply ethical analysis to those complex relationships;
- Understand solutions to the problem of allocating healthcare resources to all citizens.

Malpractice and Cost of Healthcare – *Steve Williams, JD*

At the end of this session, the attendee should be able to:

- Understand if frivolous lawsuits contribute significantly to the cost of healthcare;
- Understand if "defensive medicine" contribute significantly to the cost of healthcare;
- Understand if "Tort Reform" efforts significantly reduce the cost of healthcare.

Saturday, April 27 7:30 am – 9:30 am

SCMA Educational Session: Controlled Substance Training

Procedures for Handling Controlled Substances – *Deborah Black*

At the end of this session, the attendee should be able to:

- Identify the role of DEA related to practitioners;
- Detect various methods of drug diversion;
- Confirm controlled substances dispensed to patients are for legitimate need and appropriately documented;
- Document all required controlled substance transactions appropriately;
- Explain DEA and DHEC due diligence for practitioners.

Integrating the Prescription Monitoring Program with EHR – *TBD*

At the end of this session, the attendee should be able to:

- TBD

Combatting the Opioid Crisis – *Kevin Walker, MD and Douglas Furmanek, PharmD, BCPS*

At the end of this session, the attendee should be able to:

- Review the history of the opioid use and impact of the current opioid epidemic in the US;
- Review national and state legislation to mitigate the opioid epidemic;
- Assess resources available to healthcare practitioners to provide guidance in managing acute and chronic pain;
- Discuss strategies that healthcare practitioners can undertake to serve their patients and communities in the combatting the epidemic.

Saturday, April 27 8:00 am – 11:00 am

Student Poster Presentation Session

At the end of this session, the attendee should be able to:

- Discuss at least three of the current treatment trends as presented in the scientific posters;
- List topics presented in the scientific posters that will potentially be beneficial in daily practice.

Saturday, April 27 10:00 am – 2:00 pm

SCMA President’s Educational Session: Improving the Health of South Carolinians – TOGETHER!

Physician Resilience – *Joseph Anderson, MD, MHCDS, FACC*

At the end of this session, the attendee should be able to:

- Understand the evolution of physician burn out with advancing technology;
- Review practice engineering solutions in a practice setting to minimize burnout;
- Discuss interdisciplinary team-based solutions.

The History and Evolution of South Carolina’s Health: Business and Industry – *Sam Konduros, JD*

At the end of this session, the attendee should be able to:

- Review SC’s Economic Development – Agrarian Based Industry to Innovative Healthcare and Technology;
- Discuss the Corridor of Shame’s evolution as it relates to health disparities;
- Become familiar with national and statewide initiatives to support healthy communities.

The Medical Neighborhood – Panel Discussion – *Troy Trygstad, PharmD, MBA, PhD; Alex Karydi, LMFT, CSAC, CAC; Anna Fuller, DDS; Patrick Patterson, MSW, MPH; Angel Malone and Erica M. Jackson, JD*
At the end of this session, the attendee should be able to:

- Understand emerging national trends and programs to address healthier communities;
- Review innovative programs that have been developed to support physicians across the country;
- Become familiar with organizations to partner with in South Carolina to improve patient outcomes.

Payment and Reimbursement Today, Tomorrow and in Twenty Years – *Bruce Pyenson, FSA, MAAA*
At the end of this session, the attendee should be able to:

- Discuss the emerging drivers of increased cost in the US Healthcare delivery system;
- Review innovative programs to support the Triple Aim for Population Health (Improve the Health of the Population, Enhance the Experience and Outcome of the Patient and Reduce the Per Capita Cost of Care for the benefits of Communities);
- Become familiar with payment reform trends and the evolution of reimbursement in healthcare.

The South Carolina Medical Association (SCMA) designates this live activity for a maximum of **15.25 AMA PRA Category 1 Credits™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The South Carolina Medical Association is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

To be compliant with the AMA's "Physician's Recognition Award and Credit System," we require physicians to attest to the amount of time they are claiming credit – which should be commensurate with the extent of time they participate in a CME activity.

To assure compliance, **we now require all physicians attending or participating in an accredited CME activity**, to complete the "contact information" portion of the evaluation and, specifically, sign where indicated on the evaluation.
